

Siriki Laxmi Narayana Murthy

Software Development Engineer in Test (SDET)| Oracle via(Highpoints Tech Pvt)
Hyderabad, India | siriki.narayanamurthy99@gmail.com | +91-9014502260

Career Objective

Experienced Automation Tester with 3.6 years of experience in testing tools and processes Proficient in Managing team, Scripting, Defect identification and teamwork for delivering top-notch software quality.

Professional Summary

- Experienced **SDET** with **3.6** years in automation testing using **Selenium, Java**, and **TypeScript**, with strong **debugging/troubleshooting** skills and **API testing** expertise using **Rest Assured** and **Postman**.
- Built robust test frameworks (**Selenium WebDriver**, Rest Assured, **TestNG**, **Cucumber**, **Maven**) that closed critical coverage gaps and improved automation coverage by 60%.
- Proficient in defining and executing **test strategies** that include writing end-to-end and integration **test scenarios** to ensure thorough validation of applications.
- Reduced **regression** cycle time by 40% by implementing ALM test suites and improving early **defect detection** through test optimization.
- Led **cross-team collaboration** efforts with developers and QA peers to streamline testing processes, resolve issues faster, and align test design with product goals.
- Implemented scalable **Page Object Model (POM)** and **data-driven** frameworks to enhance test reliability and support continuous delivery pipelines.
- Skilled in **Agile (Scrum)**, using tools like **Git**, **JIRA**, and **ALM** to track progress, manage defects, and support iterative delivery.
- Well-versed in **QA methodologies**, **test planning**, and **test design** to ensure comprehensive coverage and consistent quality.
- Basic understanding of **Jenkins** services, **CI/CD** practices, **SQL**, and initial exposure to **performance testing** tools.

Technical Skills

- Languages:** Java, Typescript
- Automation Tools:** Selenium WebDriver, Playwright, Rest-Assured with Java and Typescript
- Methodologies:** Agile, Waterfall, BDD/TDD, Data-Driven Testing
- Testing Tools & Frameworks:** TestNG, Cucumber, Page Object Model (POM), Data-Driven Framework, Hybrid Framework, Maven, Postman
- Defect Tracking & Test Management:** JIRA, Bug DB
- Version Control & Repository Management:** Git, ALM
- Operating Systems:** Windows

Work Experience

Automation Tester – Oracle via(Highpoints Tech Pvt), Hyderabad | June 2024 – Present

- Designed, executed, and maintained E2E and integration test suites for Oracle EBS CRM using OpenScript (Java), closing critical coverage gaps and boosting regression coverage by 35%
- Built and sustained automation for Fusion Service Logistics using Selenium Java, monitoring test environments and results daily to ensure stable script execution.
- Defined end-to-end test strategies, including API and UI tests, leveraging strong debugging/troubleshooting skills to detect defects early.
- Guided a team of 2 QA engineers, reviewing code, sharing sprint progress, and improving automation quality—earning recognition from management.
- Used quality and performance metrics (test pass rates, defect density) to drive continuous improvements, reducing escaped defects by 30% and enhancing overall product quality.

Test Automation Engineer – Kranion Technologies, Bengaluru | Oct 2022 – June 2024

- Developed data-driven automation frameworks using TestNG, Cucumber, and Maven for web and API testing (Java); enhanced framework scalability and maintainability.
- Automated 100+ UI and API test cases with Selenium WebDriver and Rest Assured, increasing regression automation coverage and accelerating test feedback
- Integrated automated tests into Jenkins CI builds and generated reports; reduced manual testing effort by 50% and accelerated release cycles.
- Collaborated in Agile Scrum processes (stand-ups, sprint planning); logged defects in JIRA and worked with developers on issue resolution to ensure high-quality releases.

Education

- **B.Sc. in Computer Science**
Andhra University, India |2019-2022

Certifications & Achievements

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Oracle Cloud Infrastructure 2025 Certified Data Science Professional
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional
- Advanced TestNG Framework & Selenium Integration
